Summary

Senior Fullstack Engineer with 5+ years of experience delivering end-to-end web applications using React, Next.js, Node.js, PostgreSQL, and MongoDB. Currently at Bajaj Finserv; previously at DEPT® Agency, built configurable, CMS-driven platforms and integrated backend services for real-world business use cases. Proven ability to take ownership from requirements to production, including independent client delivery and designing modular systems that scale across multiple products.

Core Skills

Frontend Engineering: React, Angular, Next.js, JavaScript, TypeScript

Backend & Data: Node.js, REST APIs, GraphQL, PostgreSQL, MongoDB

CMS & Integrations: Adobe Experience Manager (AEM), API & third-party integrations

Ownership & Delivery: End-to-end ownership, production deployments, client-facing development

Work Experience

Bajaj Finserv, Pune Apr 2026 - Present

Senior Software Engineer

- Revamped Bajaj Finserv's corporate portal, rebuilding it in Next.js.
- Built and maintained the Personal Loan product detail pages (PDP) as part of the Personal Loan pod.

DEPT® Agency, Mumbai Aug 2023 - Apr 2026

Senior Software Engineer

- Delivered end-to-end web applications combining React/Next.js frontends with backend integrations and CMS-driven architectures.
- Designed configurable insurance journeys enabling rapid product launches without code changes or production deployments.
- Worked across frontend and backend boundaries to integrate APIs, data flows, and third-party services, including KYC-based data prefill and secure document collection workflows.
- Took ownership of features from requirements through production, ensuring scalability and maintainability.
- **Technologies**: React, Next.js, Node.js, PostgreSQL, JavaScript, TypeScript, AEM, REST APIs, GraphQL

Tekno Point, Mumbai Jul 2021 - Jul 2023

Software Engineer

- Contributed to frontend and backend development across multiple production web applications.
- Built an internal hiring portal automating candidate workflows and reducing operational overhead.
- Developed utilities to convert Figma designs into production-ready HTML/CSS.
- Worked closely with backend teams on data-driven insurance journeys.

SELECTED CLIENT PROJECTS (via DEPT® Agency)

IFB — E-Commerce & Spice Secret:

- Delivered CMS-driven e-commerce and brand websites using **React** and **AEM**.
- Integrated frontend applications with backend services and APIs.

India First Life Insurance — Configurable Insurance Journeys:

- Built configurable insurance workflows supporting multiple products from a single codebase.
- Integrated KYC prefill and secure document handling systems.
- Reduced time-to-market through modular and scalable architecture.

Palfinger — Enterprise Web Application:

- Developed frontend templates using **AEM** and **Nunjucks** within a cross-functional enterprise team.
- Integrated data-driven UI components in collaboration with backend engineers.

FREELANCE PROJECT

MumbaiFilter — Fullstack Web Application:

- Independently delivered a production-ready web application with an admin dashboard for managing products, quotes, and customer contacts.
- Handled frontend, backend integrations, deployment, and post-launch support.
- Worked directly with business stakeholders to gather requirements and make technical decisions.

OPEN SOURCE

Form Ninja:

- Built and published a customizable JavaScript/TypeScript form validation library on npm.
- Designed a flexible API supporting built-in and custom validation rules.
- Maintained documentation and incorporated user feedback.

HealthShield — Health & Insurance Companion App (github.com/Roshan190/health-shield):

- Solo-built an India-first, mobile-first health and insurance companion app (public Android APK at health-shield.in) using Expo/React Native, TypeScript, Expo Router, NativeWind, Zustand, Zod and React Hook Form.
- Built on Supabase (Postgres, Auth, Edge Functions): policy and medical-record vault, vitals and medications via Health Connect, household sharing, SOS, Mapbox nearby-hospital search, claims checklist, and OpenAI-powered document summaries and Q&A.
- Shipped a companion Next.js 15 / React 19 doctor portal on Vercel for view-only, patient-consented visit packs.

Education

B.Sc. in Computer Science and Technology

Mumbai University | 2018 – 2021

CGPA: 7.57 / 10
